<p>Note:</p> <ol style="list-style-type: none"> University-level projects: A maximum of 35 points may be awarded for preparing or implementing a university-level project (e.g., Aim for the Top University Project, Teaching Excellence Project, or other large scale projects approved by NTNU). NTNU research projects: A maximum of 15 points may be awarded for participating or assisting in the preparation or implementation of a NTNU research project (e.g., Talent Promotion Program or international research projects subsidized by the Office of Research and Development). Monographs or articles in monographs: Fifty (50) points may be awarded for the publication of one book (maximum co-authorship of two individuals) that meets the review requirements established by NTNU. Twenty-five (25) points may be awarded for the publication of one book with three or more co-authors (inclusive), or one article in a book, provided that the researcher is the first author. A maximum of 10 points may be awarded if the researcher is not the first author. Theses published in journals: Twenty-five (25) points may be awarded for each paper published in SCI, SSCI, A&HCI, EI, TSSCI, and THCI Core journals or other journals recognized by each college, provided that the researcher is the first author or corresponding author. A maximum of 10 points may be awarded if the researcher is not the first author or the corresponding author. Ten (10) points may be awarded for papers collected in SCOPUS, provided that the researcher is the first author or the corresponding author. Research projects: Twenty-five (25) points for serving as the project host in a non-NTNU research 			

project. A maximum of 10 points may be awarded for serving as co-host or researcher, and at maximum two projects may be counted each year. Non-NTNU research projects above shall be projects undertaken in the name of NTNU (including industry-academia collaboration projects). Serving as the project host for a sub-project of an integrated project of the Ministry of Science and Technology (formerly the National Science Council) shall be regarded as the project host for a research project; each year of a multi-year research project shall be regarded as one research project each year.

6. Patents: A maximum of 25 points may awarded for patents with substantial examination. If there are two or more inventors and the researcher did not make the highest contribution, a maximum of 10 points may be awarded. The owner of preceding patents must be NTNU.
7. **Research and service performance may not be double counted.**
