

Office of Research and Development (ORD)

Aug./2024

Responsibilities of Division of Research and Industry Liaison (DRIL)

國立臺灣師範大學

Application for Industry-Academia Collaboration (IAC) Projects

國立臺灣師範大學

Collaboration with private enterprises

Collaboration with government agencies (e.g. NSTC, MOEA, MOA)

Application Time Frame

Applications can be submitted at any time

Application Time Frame

As per announcements made by the relevant agencies

Note

- ◆ **MOE Regulations**
Approval from MOE has to be obtained before carrying out Industry-Academia Collaboration projects with partners from **Mainland China**
- ◆ **NTNU Regulations**
Every project is to set aside **15%** of its budget on administrative expenses

Note

- ◆ **NTNU application time frame**
Per announcements on the ORD website, ORD e-newsletter, and NTNU e-bulletin board.
- ◆ **NTNU review process**
When there is a limit on the number of applications, every school or government agency has particular regulations.

Procedure

1.Consensus	Principal investigator (PI) and industry partner come to a consensus
2. Agreement	Standard agreement: NTNU/the partnered institution has ownership of intellectual property rights or the ownership of intellectual property rights is shared. Non-standard agreement: ORD engages a law firm to review the agreement.
3.Application	3 copies of the contract + proposal + budget To be signed by ORD, Office of Human Resources, Office of Accounting
4.Closure	The PI sends a quarterly receipt per the project timeline stated in the agreement. The completed project should also be delivered by the stipulated deadline.

	Taiwan Germination Program (Budding & Top-Notch Projects)		
			 臺師大產學聯盟 NTNU ILO

 Applicant unit

Patent Application and Maintenance

國立臺灣師範大學

R&D results derived from the use of NTNU's resources for research or services → IP rights belong to **NTNU**

Applications can be submitted at any time
Application for a patent to the Intellectual Property Office in the name of NTNU

Grant Regulations for Patent Application

By **NTNU R&D Results and Technology Transfer Management Regulations** (updated July 28, 2023)

R&D results Type	Country of application	NTNU's Grant	Inventor's Copayment	No. of patents eligible for funding
From NSTC Projects	Taiwan & USA	80%	20%	Guidelines: 6 patents per applicant per year Two additional patents can be funded per year if any of the following criteria are met: <ul style="list-style-type: none"> The total value of technology transfer over the past five years amounts to or exceeds NT\$1,500,000 The entire project administrative expenses of IAC projects over the past five years exceed NT\$400,000
	Other countries	70%	30%	
	Mainland China	50%	50%	
From Non-NSTC Projects		50%	50%	

NTNU website, ORD Industry-Academia technology transfer Platform, T⁵GIP (Global Industry Platform), etc.

Technology Transfer and Licensing

國立臺灣師範大學

R&D results derived from the use of NTNU's resources for research or services → IP rights belong to NTNU → NTNU provides Licensing for third-party usage

Faculty member applies for technology transfer/licensing

ORD provides contract templates for reference

Engagement of law firm for contract review

NTNU, faculty member, and industry partner sign tripartite contract

Request for licensing fees

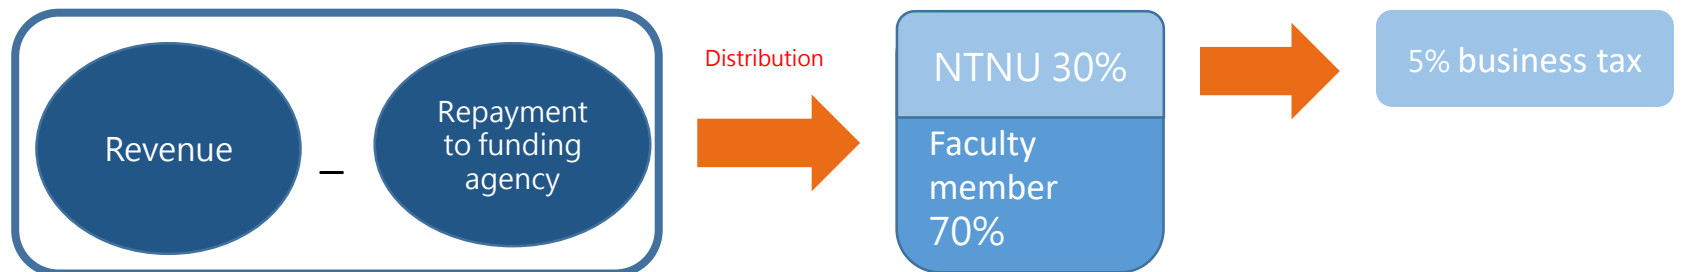

Revenue distribution

Applications can be submitted at any time

Contracts should be signed with external partner(s) in the name of NTNU

- Standard contract: Technology Licensing Agreement, Publishing & Licensing Agreement for Oral and Literary Works (for NSTC/not for NSTC)
- Non-standard contract: ORD engages a law firm to review the contract and suggest amendments.

After official seals by faculty member and industry partner → ORD endorses the contract with official seal → endorsement complete by all three parties → Faculty member writes to industry partner to request licensing fees (ORD will assist in accounts receivable)

*The revenue distribution shall be handled by NTNU R&D Results and Technology Transfer Management Regulations
